SECURITY

About Company

Leading Cybersecurity Education Excellence

Chakrabyte Security stands at the forefront of cybersecurity education, delivering world-class training programs that bridge the gap between academic knowledge and industry demands. Since our inception, we have trained over 5,000 professionals who now secure critical infrastructure across the globe.

Industry-Aligned Curriculum

Developed in collaboration with cybersecurity experts from Fortune 500 companies

Practical-First Approach

95% hands-on training with real-world scenarios and live environments

Training Syllabus

Week 1-2(Theory):

- Module 01: Networking Fundamentals
 - Discussion on typical Enterprise Network
 - OSI Layers
- Module 02: Security Operations Centre Concepts
 - Pillars of Cybersecurity
- Module 03: Anatomy of Cyber Attacks
 - Types of Malwares
 - Types of Attacks
 - Threat Mitigation
 - Discussion on Cyber kill chain
 - IOC & IOA
 - Pyramid of Pain

Week 2(Theory):

- Module 04: MITRE ATT&CK Framework & SOC initial concepts
 - Discussion on MITRE framework
 - Discussion on TTP
 - Discussion on ATT&CK workbench
 - SOC Architecture
 - Core Concepts for SOC and its operations
 - SOC Metrics

Week 3(Practical & Theory):

- Module 05: Vulnerability Assessment
 - Vulnerability Management
 - Type of Vulnerability Assessment
 - Vulnerability Management Lifecycle
- Module 06: Vulnerability Assessment Practical
 - Reporting
 - Report Analysis
 - Handling vulnerability
 - Risk Based vulnerability
 - KPI for Vulnerability Assessment

Week 4 (Practical & Theory):

- **Module 07: E-Mail Analysis**
 - Email Header Analysis
 - Email security Tool based Analysis

Week 5 (Practical & Theory):

- **Module 09: Incident Response**
 - Initial Triage
 - Log Analysis (Manual Log Analysis)
 - Analysis of different alerts
 - IOC Enrichment
 - Incident Response Workflow
 - Reporting documentation

Week 7-8 (Practical & Theory):

- **Module 10: Endpoint Detection and Response Training – Microsoft Defender for Endpoint (Intermediate Level)**
 - Defender Features
 - Defender Installation steps
 - Alert\Incident Investigation
 - Analyse Incident Graph
 - Intune policy\rules configuration
 - Vulnerability management using MS Defender
 - Quarantine files
 - Contain Endpoints
 - Live response Actions

- **Duration: 7-10 Weeks (weekends)**
